SMV Refining

- During the last week of May 1950 the SMV stopped production at the Voesendorf's refinery preparatory to enlarging plant facilities. SMV employees have been advised that the Voesendorf refinery will resume production on or bout 1 July 1950. Meanwhile the Vacuum Oil Company refinery has stepped up production in order to fulfill current commitments of the Voesendorf plant. The Nova-Denow refinery is now operating at full capacity; the Soviets are shipping its entire output to the Satellites and the USSR.
- 2. The SMV is now despatching a daily average of three trains loaded with petroleum products from Wifo-Lobau via Lundenburg, Czechoslovakia to the Balkans. Another train loaded with refined and lubricating oil is sent from Wifo-Lobau to the SMV Central Warehouse in Neusiedl every day.

Shipments Delivered to the SMV Central Marchouse

- 5. During April 1950 the SMV Central Warehouse in Neusiedl a/d Zaya completed transactions valued at 25,332,282.46 schillings; in May 1950 the turnover (Umsatz) reached a total of 30,183,174.30 schillings.
- 6. During the last week of May 1950 the SMV Central Warehouse in Neusiedl a/d Zaya received the following shipments:

16,350 kilograms of pipe from Kuibishev Sartana.

80,180 kilograms of pipe from Chrompik.

22,230 kilograms of pipe from Kirsavot (sic).

11,140 kilograms of gipe from Kritavot (sic).

33,710 kilograms of pipe from an unidentified station in the USSR.

- 5 crates, weighing a total of 178 kilograms, of geological equipment, manufactured by a Ukrainian subsidiary of the Soviet Werke für Geophysik, Kiev-Petrovska.
- 2 carloads containing 37,810 kilograms of pipe from Metall Import Trust, Zürich.
- 3 tankcars of hydrochloric acid from Novoty, Hungary.
- 7. The following shipments arrived at the SMV Central Warehouse in Neusiedl a/d Zaya during the period of 1-19 June 1950:
 - 2 carloads containing 52,540 kilograms of pipe from the Andreyeva works, Taganrog.
 - I carload containing 31,620 kilograms of pipe from Metall Import Trust, Zurich.
 - 2 carloads containing 24,260 kilograms of drilling tools from Metall Import Trust, Zürich.
 - 2 carloads containing 28,240 kilograms of pipe from Germany.(1)
 - 3 carloads containing 43,110 kilograms of pipe from Csepel, Hungary.

SMV Scrap

 To date, the USIA-controlled firm, Eisen- und Stahl A.G., has shipped six carloads of steel scrap, four carloads of cast-iron scrap, and one carload of sheet metal from the Wifo-Lobau storage depot to Hungary and Rumania.

SMV Finances

9. It ough the SIV now has a total of 8,000,000 schillings in its Soviet term bank account, SMV Headquarters has temporarily blocked payment from this account ostensibly for the purpose of accumulating ready cash for essential purchases.

SMV Purchases

- 10. The SNV recently ordered large quantities of ball bearings from Maschner, who allegedly has a brother who is employed by SKF in Germany. Maschner claims he can surply all types of ball bearings for prices 50 per cent lower than SKF list prices. Since Maschner insists that the SMV provide an unofficial bill of lading for each shipment, SiV employees are inclined to believe he is selling stolen ball bearings. (2)
- The SMV has disbursed the following payments to USIA for recent purchases of pipe: one payment in the amount of 28,350,000 schillings, and two smaller payments of 1,007,501.73 and 553,635 schillings, respectively. It is believed that the two smaller payments were for pipe supplied by Metall Import Trust, Zurich. In this connection SMV employees have learned that Schenker & Co. A.G. imported this pipe from Switzerland and then turned it over to Juschwneschtrans in Vienna for delivery to the SMV Central Warehouse.(3)
- 12. During the last week of May 1950 the SMV Purchasing Office made cash payments for the following purchases:

25X1A (4)	Comment: Mannesmann-Trauzl A.G. now has a large order of equipment

- 25X1A (4) Comment: Mannesmann-Trauzl A.G. now has a large order of equipment which is almost ready for delivery to Yugoslavia. The Soviets, however, are considering confiscation of this equipment.
- 25X1A (5) Comment: In this connection, it is noted that SIV has just received two tankears of caustic soda from the Donau Chemie A.G. plant in Brückl, Carinthia.
 - 25X1A(6) Comment: This firm may be identical with Johann Pollak & Co., Vienna XX, Dresdnerstrasse 88.
- 25X1A⁽⁷⁾ Comment: Source may refer to Spezialfabrik moderner Pumpen Ernst Vogel, Stockerau, Pragerstrasse 50.
- 25X1A (6) Comment: This firm cannot be accurately identified from available reference material.
- 25X1A (9) Comment: Possibly identical with Hans Weigel, Vienna WVI, Koppstrasse 76.
- 25X1A (10) Corment: Probably identical with Ing. Ferd. Eichler, Vienna I, Hegelgasse 5.
- 25X1A (11) Comment: SMV is no longer importing barite from Italy. Unless the Soviets can procure barite from other sources they may have to stop drilling operations at Aderklaa.
